

## Announcement regarding sponsorship contract with Furukawa Academy's Joetsu High School Football Club

Maftec has signed a platinum sponsorship contract with Furukawa Academy's Joetsu High School Football Club on October 2, 2023.

The Joetsu High School Football Club was founded in 2016. The school has quickly become a strong school in recent years since appointing the former J.League player Yuji Fujikawa as head coach, finishing in the top 4 in the preliminary of the All Japan High School Soccer Tournament in Niigata Prefecture last year and winning the Niigata Prefecture Football League First Division championship this year. The approximately 100 club members comprise not only players who grew up in the Joetsu district, but also from inside and outside the prefecture, becoming a presence that brings excitement and cheer to the Joetsu community.

We believe that the partnership between the Joetsu High School Football Club and Maftec could cheer up members of the football club, our company employees, and above all, the Joetsu community, which is why we signed this sponsorship contract.

Taking this contract as an opportunity, Maftec will build a close relationship with the Joetsu High School Football Club, conducting community-contribution activities together and planning events to energize the community such as having the club hold football classes.
